**Subject: Proposal for Professional Engineering Services for  
City of Soledad Sidewalk Replacement Project**

Dear Mr. Wilcox,

Pursuant to your request, we are pleased to submit this proposal for the subject project. Yamabe & Horn will perform the following task:

**Project Background:**

The City of Soledad has been awarded a portion of an Active Transportation Program (ATP) grant to repair as many sidewalks in town as possible, starting with the areas located around the schools, the grant also allows the City to purchase and install some fitness stations within the current City ROW.

**Task I: Plans, Specifications, and Engineering..... \$50,000**  
Yamabe & Horn will perform a visual field survey of all sidewalks within the City Limits to determine locations of sidewalks to be repaired/replaced as needed. Highest priority will be given to those sidewalks needing repair/replacement nearest to schools. Yamabe & Horn will also work with the City to determine locations to install the fitness stations and develop the site plan for locations within the City's ROW. Overall construction estimates will be developed in order to stay within the funding limits awarded with the ATP grant.

Yamabe & Horn will develop project drawings and specifications in compliance with City of Soledad Standard Plans and for bidding purposes.

*The tasks as specified above will be performed on a Time and Material (T&M) basis, based on the agreed Fee Schedule, not to exceed \$50,000. We will let the City know and submit subsequent expansion letter if additional fee is needed to perform work as described above or beyond.*
